

July 14, 2022

Families,

I am writing to provide you with an update on the modular classroom construction at Georges P. Vanier Junior High (GPV). This spring, we shared [a message](#) outlining the plan to build a 12-classroom addition (plus washrooms) to support enrolment growth, replacing the portables on site.

The modular units have been delivered to the school and installation will take place over the coming weeks. Once complete, our Operations Team will clean inside, add furniture and set up technology so the new spaces are ready to welcome students and staff in September.

It's exciting to see this project taking shape. You can expect a further update before school begins on Wednesday, September 7, 2022.

Have a wonderful summer,

Kavita Khanna  
Director, Operations Services
