Susan

Susan Tomie
Director, Programs and System Services

Hello SAC chairs,

My name is Mary Veinotte and I am the Project Lead for the Physical Activity Framework at the NS Department of Education and Early Childhood Development. I am reaching out to you today in the hopes that you will be able to add my Framework to the list of your agenda items for your next SAC meeting. The idea is to provide information on the Physical Activity Framework itself as well as receive some suggestions and feedback from SACs to help guide my work.

Linked within the content of this email, you will find a video that can be either played at your meeting or sent to your SAC members introducing the Framework as well as a description of what information I am looking to receive. There is also a link to the feedback form that can be used to record responses that, once submitted, will automatically be sent to me via email. As supplemental documentation, attached is the PowerPoint Presentation that was used in my video as well as a one page summary of the content of the Framework (currently in draft form) that can be used to help guide the discussion. Please provide your feedback via the Google Form as soon as possible after your next meeting (and before the end of the school year).

Please note that these documents are for SAC members only and everything is in draft form. Not for distribution.

Thank you in advance for your time and consideration as your feedback will have a direct impact on future versions of this exciting and important work.
