

School Alert Message – September 8, 2016

Good evening parents and guardians,

This is a message from LeMarchant-St. Thomas Elementary School.

We are looking forward to welcoming all students back to school tomorrow.

In late August, the school sent home a letter from the superintendent updating you on the progress of the renovations to the Beaufort building. At that time, the school board was optimistic all the renovations, including the roof repairs, would be completed prior to the start of the school year.

As it turns out, there is still another week or two needed to finish the work on the roof. As a result, when students return to school tomorrow the temporary fencing on the grounds will still be in place. We don't anticipate this impacting on our daily activities as the work will only occur after school hours and on weekends.

The school looks great and we looking forward to seeing everyone tomorrow.

Good night!
