

June 15, 2020

Hi all,

Below is a message from the Department of Education and Early Childhood Development regarding the release of a new provincial Transportation Policy.

To SAC Chairs and Co-Chairs,

As we discussed in previous consultations, the Department has been developing a provincial Transportation Policy with a planned implementation in September of this year. This policy will be released today. The feedback you provided on transportation options has been instrumental in the development of this policy.

The COVID-19 pandemic has changed the way we have needed to work. Rolling out this policy is no exception. We hope to discuss the role of SACs in roll-out and implementation once COVID practices for the new school year are known and approved by Public Health. We are hoping that you will support the communication of this policy through your School Advisory Committees.

Thank you for your support,

Jeremy Smith

Director, Policy and Planning
Education and Early Childhood Development

Thank you,

Susan Tomie

Director, School Administration
