**Special Needs Transportation – Back to School Update for Families**

Dear Families,

With the first day of school quickly approaching, we are reaching out to ensure you have all the information you need about student transportation to ensure a smooth transition back to school.

**We want to make sure we have all the right information. If anything has changed in your details with respect to transportation, please contact our Transportation Support Specialist, Athena Leclair, via email [aleclair@hrce.ca](mailto:aleclair@hrce.ca).**

What do you need to know about busing?

We recently sent an email to families who are [eligible for student transportation](#) for the 2020-21 school year as they must activate their new BusPlanner Parent Portal account this year to review transportation information for their child(ren).

We will continue to provide updates via email, and more information about busing and BusPlanner can always be found at [hrce.ca/transportation](http://hrce.ca/transportation). We are here to support families, and we look forward to seeing you all in September!

Best regards,

Earl Romkey  
Transportation Coordinator  
HRCE Transportation Team
